

Vinewood Hills Police Mini Livery Pack

Released on 3/16/2020

I have decided to get back into making skins again, after taking a few months off after calling it quits back in November. This is a small pack of Vinewood Hills Police Department livery for 3 different vehicles. These liveries can be used for your LSPDFR, or for FiveM.

This pack includes skins for the following vehicles that are pictured, but can be used on vehicles with the template that matches the ones in the folders.

2016 Ford Police Interceptor Utility

I do appreciate all the support, and I do hope you enjoy this little set of liveries I put together. I do ask that you do not publish these to any other website without my permission. Thanks again, and looking forward to making more skins in the future.
